RE: Docket Number 7-16

Dear Madame Secretary,

Maryland business continues to grow and remain competitive but we rely on the growth and development of the necessary technologies to compete in global marketplace. Among **the** many tools businesses use, the Internet has quickly become a pillar in the structure of success.

Businesses, **like** my own, use the Internet for a variety **of** tasks. From our **website** to our expenses, to our marketing materials to our business lunch reservations, the Internet has sped things up and made them easier. I was shocked **to** learn that many businesses don't have access to the Internet and, therefore, can't compete effectively.

M2Z Networks, via Docket number 7-16, will ensure free Internet access to **all** business and people. **This** will help escalate the growth of Maryland's competitive nature and add to our illustrious status in the business world. Please support the **M2Z** as they make conducting business easier for **us all**.

With many thanks.
